You should understand yourself and your decisions better than anyone.
If you don't yet you should go do some reflecting.

Waiting to get bigger, older, smarter to finally do what we want, so they'll finally listen to us.
Waiting because it seems like we can't reach what we want yet, or we don't know what to do next.

...do you think power is so easy to gain? It's not something you can have without understanding it.

Are you done ranting yet?

It feels like the power for change isn't in our hands, it's always in someone else's.

Here we go, let's take off that leash.

Waiting for someone to say something, do something. Waiting for things we're looking forward to, or for something unpleasant to be over.

This is a work of fiction any resemblenace to existing persons real or otherwise is purely coincidental

Hello Dear Readers!

Thanks for patiently reading JAY and for all the kind support in the comments, I read them whenever I can!

I would like to answer some of your many questions if it doesn't spoil the story, so please be generous, I hear you can even win an IPAD at the moment!

I know some of you are asking for more plot and the story to develop faster. Although I am incredibly flattered JAY was planned to be a slice of life comic, that also has various plot elements. The story will often cut between serious and more light hearted or humorous shorts as well as plot relevent episodes. I'm sorry to make you wait but thanks so much for sticking with it! (It's more words than action I hope you don't mind that)

You may have wondered Is Yuli male or female? Julie is Darius' sister (you'll get to see her later) however Yulius is androgynous so there is no clear gender.

Next week I will tell you a bit about myself.
Feel free to ask about me or the comic and it may get answered! And who knows, your good idea may even become its very own comic in the future!

Your readership means so much to me, so thank you in advance for your reading, sharing, commenting, and liking! ♡

-Yuli

Mwaah

I'm sure all this is incredibly profound or something but what's your point?

You were saying nothing's changed?

You don't believe it's possible to change your fate with only what I told you? It's only because you don't understand yet, the kind of change you want.

You want something more to happen right? Then I will give you a clue.

You said that you don't have power. But that's not true, you have more power than you'd ever think to use. It would be easy if we could change everything with simply a thought, but...

Think. What have I told you so far? Why did I tell it to you? When you understand, you will know what to do next.

One day, when things really change, you'll realise you weren't waiting because there was nothing you could do, you were waiting for yourself, for yourself to gather courage and knowledge to be the change maker. I guess that's part of growing up too.

Who's the cutest?

I guess we do spend a lot of time waiting for things to change.
